

FAACT's FREE Resources for Increasing Food Allergy Awareness at School

FAACT's Food Allergy Curricula for Schools

FAACT is proud to feature our Food Allergy School Curricula Program. The teacher-designed PowerPoint presentations, lesson plans, and activities in this free curriculum can be used to introduce your students to common food allergens and safety protocols while encouraging empathy for classmates with a food allergy.

Complete the short form on our Web site and download the [free programs](#) today! Then all you have to do is click on the below programs you wish to download and print.

Be sure to share with your schools and colleagues!

'FAACTs for Schools' Staff Education Program

FAACT for Schools brings a complete educational program directly to schools. Our [free educational presentation](#), Get the FAACTs About Food Allergies, contains an overview of food allergies including current best practices based on the Centers for Disease Control's "Voluntary Guidelines for Managing Food Allergies in Schools".

With a pretest, post evaluation and complete talking points, this presentation can be used by parents or educators to educate school personnel nationwide. Also included in our completely free package are convenient handouts such as FAACT's 10 FAACTs about Food Allergies.
